

Brakes

Fluid Level Inspection

Front Brake Fluid Level

RIGHT
HANDLEBAR

(1) LOWER level mark

With the motorcycle in an upright position, check the fluid level.
It should be above the LOWER level mark (1).
If the level is at or below the LOWER level mark, check the brake pads for wear (page 87).

Worn brake pads should be replaced. If the pads are not worn, have your brake system inspected for leaks.

The recommended brake fluid is Honda DOT 4 brake fluid from a sealed container, or an equivalent.

Other Inspections

- Make sure there are no fluid leaks.
- Check for deterioration or cracks in the hoses and fittings.
